CONWOOD

Forwarding Nature-Centric Living

For over a decade, Conwood has been on a continuous, relentless quest to provide the best aesthetically pleasing, luxurious living, ecologically responsible, systematic building solutions as well as decorative materials.

Conwood adjacent products—through patented innovations, creative designs and constant tests and trials—strive to uphold high-level craftsmanship, elevating living standards while inflicting the least harm and disturbance to our environment.

Our pride and joy stem from our patented “flow-on” technology which enables us to generate identical-to-nature textures upon the first touch while the nature-like veneer designs deliver the elusive genuine wood patterns. Through innovations, Conwood products are equipped with fibres, allowing layering techniques and woodwork tools to be used seamlessly. Easily installed and maintained in all weather and terrain conditions, we guarantee the highest level of safety that is also child and pet friendly.

Conwood’s wide-ranging product lines are designed to serve every building and decorative need from private homes, and curated spaces to large-scale constructions.

With Conwood, there's no need to knock on wood.

Eave and Ceiling Applications

With Various Stylish Materials

Conwood provides various styles, that help you elevate your design for every surface both interior and exterior.

Easily installed, transported and cleaned, Conwood covers all essential bases to fulfill your construction and maintenance needs.
