CONWOOD

Design Solutions for A Beautiful Future

More than 20 years ago, we began with a goal to develop an alternative building product that could replace wood. We innovated to conserve the trees.

Today, the threats facing the environment have become far more complex. As a result, the expectations we place upon ourselves have evolved too. Now we're innovating to conserve the planet.

At Conwood, it's our mission to develop beautiful, sustainable building solutions; solutions that shift our industry to be better for the Earth. We are doing this by continuously refining our products, processes and services to reduce our waste, carbon emissions and resource use, whilst demonstrating that ethically responsible solutions can be beautiful and durable.

Certified by :

Eave and Ceiling Applications

Co-Creating a Liveable Planet

We find inspiration in the beauty of wood, yet our greatest inspiration comes from nature thriving. From our origins designing building solutions that conserved forests, Conwood has evolved alongside global environmental challenges.

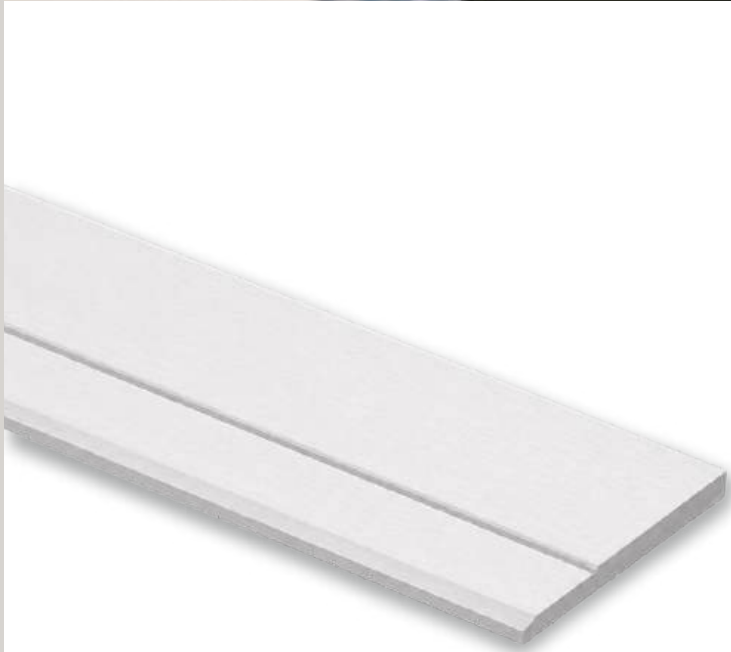

Today, we're dedicated to advancing sustainable production processes to create low-waste, low-emission and safe building solutions that minimize environmental impact, both now and for generations to come.

- Conwood Eave 2 in 1
- Conwood Eave
- Conwood Decorative Lath

CONWOOD EAVE

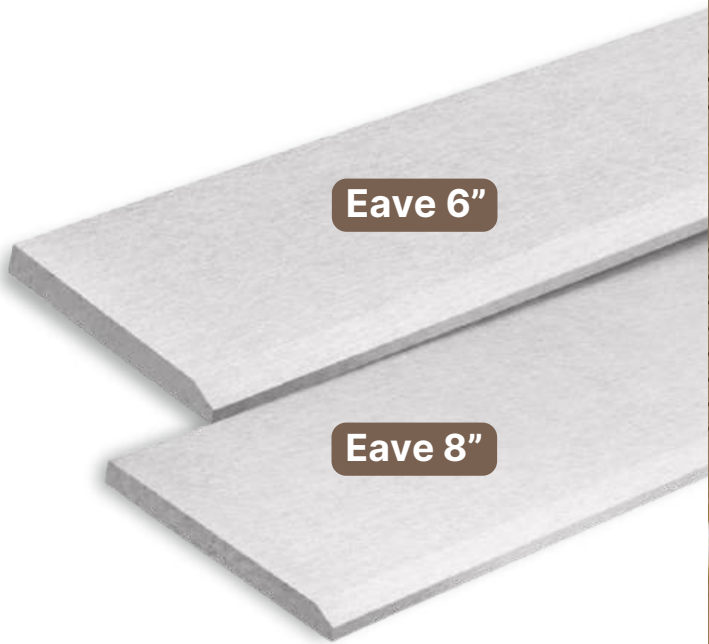

Conwood Eave comes with high quality which can be alignmently installed without any bending or twisting. Resistant to all weather conditions and offers a natural beauty with its wood grain texture appearance.

CONWOOD EAVE *Zintl*

CONWOOD EAVE 2 IN 1 comes with new quality and design similar effect to two pieces of eave banded together. It is light-weighted and good at linear alignment installation without any bending or twisting. Add more beauty with its texture of natural wood grain perfectly respond to customers need.
