

# SIEMENS

## Frameless, Boundless

Bold design never follows the stream

## Siemens DELTA<sup>®</sup> Arina Series

Siemens DELTA<sup>®</sup> arina switch and socket

## Never follow the stream

Do you accept the commonplace  
or seek life on the edge?

Whether chasing a dream  
or creating a trend,  
listen to your heart.

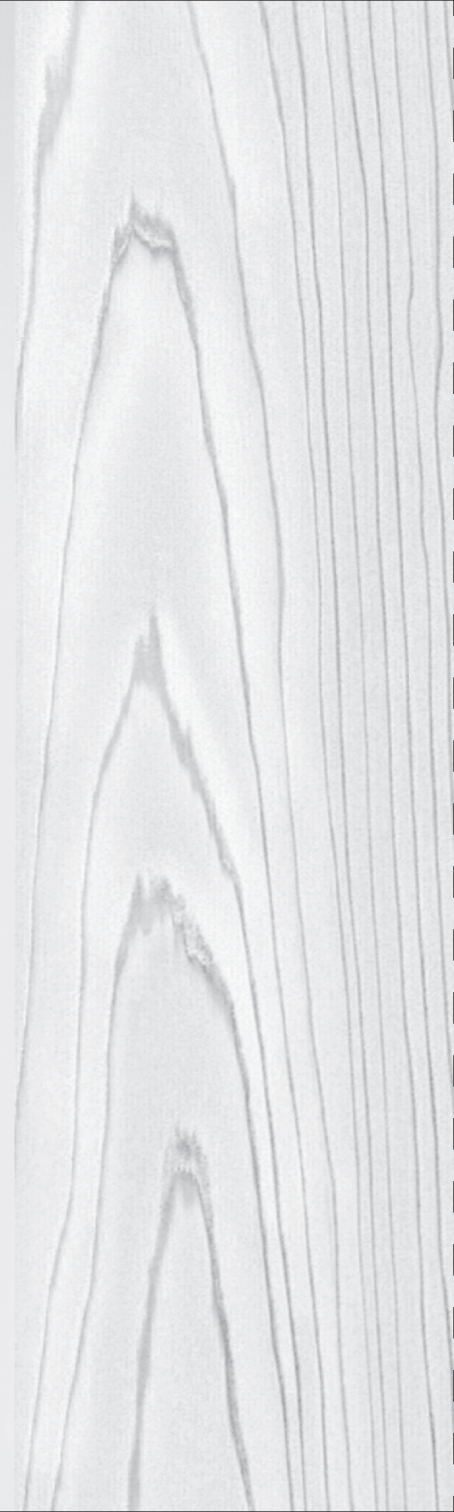

It always beats freely in  
a frameless world.

## **Bold design never follows the stream**

Unconstrained by tradition,  
it maximizes aesthetics through minimalism.

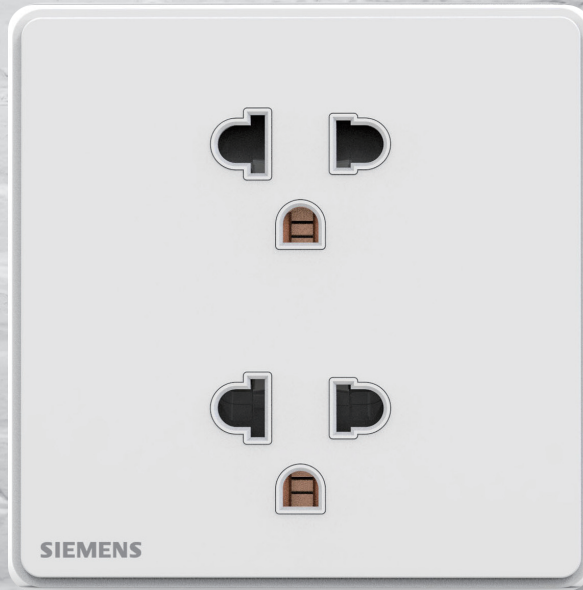

## **Boundless**

### **Frameless Design**

The frameless design embraces minimalism beyond traditions, serving as an attractive addition to any decor.

## Sleekness

### High-grade Polishing

The high-grade PC materials enhanced a highly polished surface, sleek like the surface of a lacquered-piano.

## Hassle-free

Ergonomic and efficient design in all disciplines makes it safe and convenient for users.

The termination design effectively reduces the metal temperature; the dual-layered faceplate on the socket gives double assurance; a wide-spaced socket with USB brings versatility.

**Bold design  
never follows the stream**

Creativity is an attitude that brings radical transformation.

## Convenient

### Dual surfaced design

Wide selection of functional modules to meet individual needs. Rigid surround makes easy installation even on an uneven wall.

## Seamless

### State-of-the-art termination design

A special termination design can seamlessly fit a 1-4 sq mm wire. Installation has never been so easy.

## Invisible

### Subtle LED Light

The LED light emits a subtle glow when the switch is off, and fades away when turned on. Whether on or off, the LED is always an elegant complement to its surroundings.

# Bold design never follows the stream

Push beyond boundaries.

## Products with functions

Perfectly meet the demands of luxury hotels and apartments.

Frameless, Boundless

# Be Unique. Do Different.
